3.165.000 €

INFO: Country estate or "possessió" known as Son Marrón. Its history dates back to 1232, being at that time an old islamic dairy farm. . At present, the materials of the time and enclaves that make this house a very special property are still preserved. The main house with all its annexes are located more or less in the center of the estate, thus leaving absolute privacy to its dwellers . Standing on a fully fenced in plot of 759,000 m ², we have a total 1743 built surface, 566 of which belong to the main house and the rest in agricultural warehouses, firewood, chicken coops, pigsty etc ... It should be noted the property has 4 water wells in convenient spots and electricity is supplied by a large power generator. The house has two floors and can be separated for two families. Both floors have large rooms, original kitchen , bedrooms, bathrooms etc ...Several parts of the property(mainly roofs and flooring) have been refurbished, it would still need some updating, for instance new bathrooms and carpentry. The farm has easy access and has native trees such as carob, fig and almond trees. They say that a picture is worth a thousand words so we offer you to enjoy a pleasant visit. Do not hesitate to contact us, we will be happy to assist you.
